

## **Frequently asked Questions based on feedback during MIS WDC PMKSY 2.0 Trainings**

**Q1. How the measurement of Ground Water Table is to be done - whether data from local government department is to be taken or actual measurement is to be done? Water table of which place in the project area is to be taken as there is wide variation within the project area?**

**Answer:** If data is already existing with a government Department like Public Health Engineering Department, the same may be obtained. Otherwise, data may be taken from some key points within the project area. In case of data for multiple points available, an average of the same may be taken for the project.

**Q2. In case of absence of unique plot number, how the plot-wise data to be entered?**

**Answer:** In such cases, based on a field survey/inquiry and information gathered from the village/community heads, the name of the person who is cultivating a specific plot of land as assigned by the village / community head may be given in plot number.

**Q3. If there are more than one watersheds in a village how mapping of village and watershed committee to be done as there are more than one watershed committees?**

**Answer:** As per para 13.2 of the Guidelines for New Generation Watershed Development Projects (WDC-PMKSY 2.0) the Watershed Committee is to be constituted at Gram Panchayat level. Members may be from all the villages covered under the particular Gram Panchayat.

**Q4. How do we assign the details of the SHG which is getting benefit from different departments?**

**Answer:** Details of Department with whom the SHG is registered are to be given.

**Q5. How to give the figure of Average Annual Turnover for newly created SHG/FPO?**

**Answer:** The initial figure of zero is to be given in such cases.

**Q6. Can we edit/update the details of existing SHG/FPO during the project implementation?**

**Answer:** Only the progress can be updated.

**Q7. How verification of each work id to be done by SLNA before approval?**

**Answer:** This needs to be ensured as per the DPR and financial progress

**Q8. How to incorporate a village in the MIS list if it is not there in LGD ?**

**Answer:** The missing village is to be first included in the LGD with the help of concerned Department. Once, updated in LGD, same may be

forwarded to DOLR-NIC for updation in MIS list.

**Q9. How to accommodate a project which is covering an area lying in two different districts?**

Answer: As per the existing provisions, this is not a normal case for selection of the watershed project area. However, in such cases, State may divide such project into two separate parts each lying in a separate district after taking all requisite approvals such as State HLSC and DOLR Steering Committee.
